To Whom It May Concern:

Springboard Before and After School Program, has been the provider for Cherry Creek Academy since the summer of 2008. CCA chose to work with Springboard due to the high recommendations they received in supervision, creative activities, and parent and student satisfaction. Since the first day, we have been extremely pleased with their program. Springboard's staff has developed a good working relationship with us and maintains good communication, on a regular basis.

Upon hearing that CCA had chosen a new provider for the 2008-2009 school year, our former before and after school program pulled out early. Unfortunately, this left our parents without care at the last moment. Springboard filled in the gap, starting service several weeks' early and provided care with great results. Parents report that their children are happy and content with Springboard and we often hear, that the only problem is that their children don't want to go home.

The administration has been very congenial, easy to work with and flexible with our school schedule and needs. Personally, I have been very pleased with the maturity, experience and character of their employees. Whenever there has been a need to clarify or change a procedure or activity the response from the Administration and employees has been immediate and cheerful. In addition, financially, our revenues have increased, with more students attending; we earn a greater percentage, each month.

Cherry Creek Academy looks forward to many more years with Springboard, as the provider for our students when school is not in session. We can enthusiastically recommend Springboard as a reliable and professional provider for before and afterschool programming.

Sincerely,

Pat Leger
Principal

Rock Ridge Elementary School

To Whom It May Concern:

Springboard has been offering before and after school day care for the Rock Ridges parents. Brett and his staff have made a positive contribution to our school and the community. Parents have often commented to me about how much they appreciate the day care and the friendly nature of the staff. I could not agree more. In the few months they have worked at our school, they have become part of our team.

One of the most outstanding qualities of the program is their willingness to accommodate the people they serve. They certainly understand customer service and work hard to make the "Springboard Experience" a positive one. The Springboard staff have worked closely with my classroom teachers to make sure the work being done in the after school program is meeting the expectation of the teacher. We have witnessed great success from the students involved in the program.

It is without reservation that I fully endorse the Springboard program and am willing to speak to you about it if you so desire. I think any school will agree that the Springboard program makes their school even better.

Sincerely,

Dennis Ingram

To Whom It May Concern

Crown Pointe Academy of Westminster is a K-8 charter school. We are in our eleventh year of operation serving 275 students.

This school year, we have had the privilege of having Springboard After School at Crown Pointe. The Springboard program has offered a variety of activities to enrich our students' day. They have provided a quality staff to help students with their homework. The afternoon is well-organized, the students are well-supervised and best of all, they enjoy attending! Our teachers are pleased with the academic help the students receive as well as the communication that takes place between our teachers and the Springboard staff.

Working with Springboard to set up the program went smoothly. As questions or concerns have risen during the year, solutions were reached satisfactorily. I have been pleased with the quality of the program and the low amount of my time it takes to have the program housed at our school. Parents highly recommend the program to their friends.

I would highly recommend Springboard After School to schools who are looking for a quality program which offers more than child care for their students after school hours.

If you would like more information, please feel free to contact me.

Sincerely,

Barbara Ridenour
Director
