“Totally Awesome Summer” ...and that’s just what the parents are saying!

Summer @ Springboard

We have an amazing summer planned and we can’t wait for it to begin! We understand how important it is for your child to have a stress-free, enriching and brain engaged summer. That’s why, based around our weekly themes, we have a calendar chock full of exciting and educational activities. And we’ll spend at least 1 hour a day of focused (and fun) academic time and summer reading. Along with Academics, our summer schedule includes swimming, field trips, special in-house visitors, arts & crafts, sports, and so much more.

We understand that you’re not looking for an afternoon babysitter. That’s why we hire teachers who are trained and experienced specifically to understand the needs of school age kids. Part teacher, part activities coordinator, part friend, our staff know how to provide just the right level of guidance and instruction while always respecting your child’s own needs. Our teachers return year after year to our summer program because they have as much fun as the kids!

Our Weekly Themes:

June 27 - July 1: Native American Culture

In this cultural eye-opener, we’ll explore Native American shelters and the differences throughout the regions including food, crafts, clothes and transportation. We’ll build our own shelters, totem poles, moccasins and dreamcatchers.

July 4 - July 8*: Colonial History

What was it like for the first colonists here in America? Get ready to make your own quill pens, hand-dipped candles, rag dolls and colonial cuisine. We’ll also play Colonial games such as Rounders, Hop Scotch, Tag and more!

EVERY TUESDAY IS BEACH DAY!

July 11 - July 15*: Flying Machines

This week is all about aerodynamics. What does it take to make things fly, glide and propel. Get ready for whirly gigs, boomerangs, paper airplanes, remote control helicopters and rockets. Join us on a field trip to sit in the cockpit of a jet and interview the pilot!

July 18 - July 22: Kids in the Kitchen

Our most popular elective is back this summer! Our chefs will be cooking calzones, tacos, blueberry pie, ice cream and more. Anyone hungry?

July 25 - July 29*: Inventors Workshop

Who invented Beyblades? Or sneakers? We’ll explore what it takes to be an inventor and learn how they think. Then we’ll try our hand at creating our own Springboard Inventions.

August 1 - August 5*: Drama

Lights, Camera, Action! We’ll take you from page to stage as we create and perform our own plays. We’ll explore improvisation, acting, scenery, props, and costumes as we collaborate on this student production.

August 8 - August 12: Fashion Art

Jump into art that you’ll use over and over again! We’ll design our own clothing and accessories. Add some pizzazz to an old pair of sandals or sunglasses, Tye-Dye a t-shirt and socks and learn to make key chains.

August 15 - August 19*: All Stars Sports & Fitness

On your mark, get set, go! Get ready for a week of kickball, badminton, four square and baseball. We’ll delve into the history of sports and discover what makes a team successful. Get your heart pounding and your head in the game!

* Field Trip Fridays - details online on the Westford page of www.springboardafterschool.com
